DATA SHOWN PRIOR TO SEPTEMBER 2015 IS FOR ALL ADULTS NOT REGISTERED VOTERS

METHODOLOGY

A total of 1012 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 27% described themselves as Democrats, 24% described themselves as Republicans, and 49% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 27BD
Next I'm going to read the names of some of those candidates and ask how you would feel if each
of them won the Republican presidential nomination next year. As I read each name, please tell me
whether you would feel enthusiastic, satisfied but not enthusiastic, dissatisfied but not upset,
or upset if that person were the Republican nominee?
