

This is from ID2020 Alliance. Here are the last 2 paragraphs showing the same restrictions for not having the infamous **Mark of the Beast.**

If the Alliance's goal is a globally recognized digital identity for everyone from birth to death, will that become a global mandate? How will it be enforced and by whom? What happens to those individuals who are unwilling to participate? Will they be persecuted? And how will the implementation of identification evolve with technology beyond smartphones? Will wearables, implant's like those being used in Swedish subways or some form of digital tattoo become the norm?

As more and more transactions become digital in nature and are built around a single global identification standard, supported by Microsoft, the question of who will govern this evolving global community and economy becomes relevant. Especially since nonparticipants in this system would be unable to buy or sell goods or services.

The Mark of the Beast?

"Covid vaccine in a patch. The method is so simple it could even be administered at home. It's about the size of a fifty cent piece and it's simple to apply. The tiny patch comes packaged in an applicator. One click and you are vaccinated.... **Clinical trials in humans are set to START NEXT YEAR [2022]** and this is how it works -- on that tiny patch there are dozens of tiny needles so small you need a microscope to see them."

This places a **MARK on the body (quantum dot tattoo) that will be needed to "buy or sell."**

No need for the RFID chip. This is **OLD Technology.**

Luciferase makes the quantum dots from the vaccine patch glow under a scanner.

Do NOT put this on your body!

The MICRONEEDLE vaccine (which proves vaccination via a scannable 'mark' or 'stamp' on the body) could be delivered to your house for YOU to put on yourself! That same Greek word for 'mark' also means 'badge of servitude'.

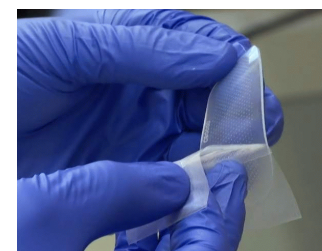

NOTE: The Greek word for 'hand' (CHEIR) in Rev. 13:16; 14:9; 20:4, includes the forearm, just as shown in the diagram!

Vaxess Patch

Microneedle vaccines can be mailed to people for them to place on their own bodies.

This type of vaccine will leave a **MARK on the physical body!**
